

CIP LEVEL 1

CERTIFICATION

Students successfully completing either the 5-day Classroom Course or CIP Exam Course 1 are recognized as NACE Coating Inspector Level 1-Certified.

COURSE OBJECTIVE

CIP Level 1 presents the basic technology of coating application and inspection that offers more than 60 hours of instruction and practice. This course provides both technical and practical fundamentals for coating inspection work on structural steel projects.

COURSE OUTLINES

Curing Mechanisms	Role of the Inspector
Test Instruments	Inspection Procedures
Coating Specifications	Application Procedures
Coating Failures	Field Lab
Pre-job Conference	MSDS and Product Data Sheet Review
Logbook Documentation	Surface Preparation
Team Exercises	Case Studies

WHO SHOULD ATTEND?

Although specifically designed for coating inspector trainees, this course benefits anyone interested in gaining a better understanding of coatings application and inspection, including project engineers, quality assurance managers, contractors, technical sales representatives, blasters, paint applicators, and maintenance personnel.

TRAINING OPTIONS

6-day Classroom Course.

This option provides 60 hours of classroom instruction, including one day of hands-on training. The course concludes with both written and practical exams.

CIP Exam Course 1 (with purchase of CIP DVD Set 1).

This option completes the Level 1 training contained in the CIP DVD Set 1. This three day short course includes a practical lab at an offsite coatings facility, hands-on training necessary to perform coating inspection work, and team exercises. It concludes with both written and practical exams.
